

Example of a pretty insightful reflection

This is my reading artifact. I liked this piece because it shows my process of working through the readings when I am having trouble. I also liked how we highlighted the preterite and imperfect. It really helped me better understand this topic. This shows that I am dedicated to my studies and that I have grown in my ability to comprehend reading in Spanish.

Example of a reflection that is not very insightful

I wanted to include another piece of writing but at the moment it seems to be lost.

Writing artifact

In class activity

It is not complete – I think I had a hard time remembering

This shows that I am better with the here and now and not the past.

I wouldn't redo this activity because this shows what I can actually do, however I do think I should have written a bit more.
